CRYSTAL CREEK ORGANICS

Lab Tested, Mother Nature Approved™

What is CBD?
CBD is a compound found naturally in cannabis plants. CBD is one of the major cannabinoids that have been isolated and proven to have medicinal properties. There is ample evidence that shows CBD is therapeutically useful. Its therapeutic uses include anti-inflammatory, analgesic, anti-anxiety, anti-seizure, anti-oxidant, neuroprotective and even antipsychotic properties.

Who is CCO?
Based out of Tallahassee, FL in the Sunshine State, Crystal Creek Organics was co-founded in 2007 by Organic Chemist Ryan Cassell, PhD and a small group of cannabinoid enthusiasts. Believing there is more to business than profits, CCO has teamed up with non-profit organizations, farmers, extractors and eco-friendly packaging companies to help play our part in a progressive and changing world.

Our Commitment
Here at Crystal Creek Organics, we strive to bring you the highest quality CBD products the industry has to offer. We do this by sourcing the best organic hemp extracts and premium ingredients to bring you the results you desire.

Why CCO?
3rd PARTY LAB TESTED - All product batches are sent to 3rd party labs upon completion to check for quality and assurance. These labs can be viewed by scanning the QR codes displayed on all of our product labels.
ECO FRIENDLY - 1% for the planet. No Issue Eco Packaging Alliance. Environmentally Conscious and Responsible.
QUALITY CONTROL - All of our CBD oils, extracts, concentrates and finished products are manufactured in a GMP or ISO certified facility in the United States with some of the highest quality control measures in the industry.
SUPPLY CHAIN TRACKING - The active ingredients in CCO products can be tracked through our supply chain from farm to shelf via the lot/batch numbers displayed on each product.
TRANSPARENCY - Enjoy the confidence of full ingredient transparency. Clearly stated ingredients and icons help our customers identify which products have THC and which ones do not.

WHAT IS CBD?
CBD is a compound found naturally in cannabis plants. CBD is one of the major cannabinoids that have been isolated and proven to have medicinal properties (over 100 cannabinoids have been isolated to date). Although more clinical studies are needed to fully evaluate all of the clinical potential of CBD, there is ample evidence that shows CBD is therapeutically useful. Its therapeutic uses include: anti-inflammatory, analgesic, anti-anxiety, anti-seizure, anti-oxidant, neuroprotective and even antipsychotic properties.

WHERE DOES OUR CBD COME FROM?
Our hemp comes exclusively from the largest registered phytocannabinoid rich industrial hemp farms who comply fully with industry standards. Pesticides and herbicides are never used and there are no heavy metals present in the soil or surroundings where these hemp plants are grown. Our CBD is extracted using supercritical CO2 techniques to ensure the highest quality.

CBD EDIBLES
Gummies & Honey Sticks
Our phytocannabinoid rich CBD edible products are created with either CBD crystalline isolate or broad spectrum oil. These products include CBD gummies, CBD candy and CBD soft chews.

CBD ORALS
Full Spectrum Soft Gel Capsules, Chewable Vitamin Tablets
Phytocannabinoid Rich (PCR) Hemp CBD Oil soft gels are broad spectrum containing CBD, CBG, CBN, CBC, other cannabinoids and terpenes and were designed to give you optimum bioavailability and absorption. Our chewable CBD tablets contain 10mg of CBD and other natural cannabinoids infused with delicious strawberry flavoring, vitamins and minerals.

CBD PET TREATS
Bacon Bites, Pigs in a Blanket, Swedish Meatballs, T-Bone Tidbits
Our CBD Pet Treats are packed with vitamins, minerals and tons of flavor and were designed to contribute to overall health and wellness. CBD helps pets that are aggressive, excessively nervous or have been associated with trauma.

CBD SUBLINGUALS
4 All Natural Flavors & Full Spectrum
Isolate based, THC free Sublinguals in Chai, Coconut, Flavorless Hemp and Mandarin Orange and Full Spectrum Sublinguals, enriched with a variety of cannabinoids and terpenes for additional benefits.

CBD TOPICALS
Body Lotion, Pain Cream, Lip Balm
CBD Hand & Body Lotion moisturizes and rejuvenates for soft, beautiful skin and is enhanced by the added benefits of CBD. Our CBD Pain Relief Cream provides immediate results on aching muscles and joints. Ideal for sports related soreness and post-workout stiffness, muscle spasms, cramping and inflammation.

CBD VAPES & COMBUSTIBLES
Vape Cartridges, Isoterts, Isolates
Our vapes are custom formulated using pharmaceutical grade CBD isolate infused into the highest grade MCT Oil and terpenes. Each flavor is master blended to match particular strain profiles. Our Isoterts are pharmaceutical grade CBD, infused with 100% natural and organic, steam-distilled terpenes.

HEMP VS MARIJUANA
The most notable difference between hemp and marijuana is in the types of compounds produced by the plant, specifically tetrahydrocannabinol (THC) and cannabidiol (CBD). THC is the chemical responsible for marijuana's psychological effects and "high". In contrast, hemp plants contain negligible or no THC, essentially making it impossible to feel any psychoactive effect or get a "high" from using hemp, but instead contain CBD. CBD is the main compound produced by hemp that provides the medicinal properties that hemp is famous for.
